2020
ORTHOPEDICS
enrich
life.

e-life is dedicated to restoring mobility and improving the quality of life for people around the world. Through our commitment to quality, innovation and product safety we deliver life enhancing product solutions that have a positive impact on a broad range of musculoskeletal conditions.

As one of the world's leading providers of

orthopedic supports, e-life has built its reputation on innovative product solutions that are founded on a total commitment to quality and safety. We control every stage of the manufacturing process and apply the same exacting standards, from the sourcing of raw materials to research and development, manufacture and testing. Our commitment to quality and safety is paramount and we exceed all international quality and safety standards, including DNV, DIN, CE and FDA – we are accredited with ISO 9001 and ISO 13485. Our in-depth medical knowledge combined with our advanced product design expertise enables us to deliver functional products for optimal patient care, helping solve mobility problems and deliver a better quality of life.

E-life Sports Medicine is committed to developing the ideal brace that offers complete protection for athletes and sport lovers. Braces varying in strength are available to offer all-round protection of injured joints, muscles, ligaments, tendons, and other tissues, thereby ensuring excellent stability.

To cater to the needs in sports arenas or outdoor activity environments, E-life Sports Medicine made of neoprene material produces warmth and moderate pressure on joints and muscles. In addition, cool-fit material has also been developed to provide good ventilation and moisture absorption as well as environmental protection material features. Knitting technology is also adopted to provide moderate pressure and the 3D trim for a more comfortable fit.

Enthusiastically adhering to the R&D spirit and innovative ideas, we strive to create more benefits for sport doers in the field of sports medicine.
